

Nine brewing methods

Pour over, Chemex and French press use about 60 grams of coffee per litre.
Small strong cups use much more.

Espresso

Coffee 18 g
Water 36 g out
Time 25-30 s

Fine, like table salt

Turkish coffee

Coffee 7 g
Water 70 ml
Time 3-4 min

Extra fine, like powdered sugar

French press

Coffee 30 g
Water 500 g
Time 4 min steep

Medium-coarse, like coarse sea salt

Moka pot

Coffee 15-17 g
Water 150-200 ml
Time 4-5 min

Medium-fine, like table salt

Pour over (V60)

Coffee 15 g
Water 250 g
Time About 3:30

Medium-fine, like fine sand

Chemex

Coffee 42 g
Water 700 g
Time About 4 min

Medium-coarse, like kosher salt

AeroPress

Coffee 17 g
Water 220 g
Time About 2 min

Fine to medium-fine, like table salt

Cold brew

Coffee 55 g
Water 700 ml
Time 12-24 h

Coarse, like breadcrumbs

Capsule machine

Coffee 5-12 g
Water 40-240 ml
Time Under 1 min

Pre-ground in the capsule
